How does the project work?

The Community Healing Arts Project has been funded by the Ranges Foundation. Four main organisations have partnered with the project. They are Nexus Primary Health, Ellimatta Youth Inc., Phoenix Rising Wines - A Gender-specific group and Kinglake Ranges Arts. These partner organisations have selected seven facilitators, who either live and/or work in the ranges communities and who know some of the community issues first hand. With a passion for a particular art modality, they have been trained to facilitate and design their own workshops, and now invite the community to participate.
